Good morning,

Thank you for your email. Please note that DSD worked with the Council Offices to create the list of neighborhood Task Force members. At this time, we are not adding Task Force members to this already working group. However, your feedback is important to us as these potential changes impact our entire City. You are welcome to attend our Task Force meetings as they are open to the public. DSD staff can include you in email communication to the Task Force members and/or you can sign up on Constant Contact to receive information on any Unified Development Code changes at the link below:

Further, in the Task Force meetings the members discuss the proposed amendments and at times create sub-committees. You are welcome to reach out to a Task Force member to request participation on the sub-committee meetings. Please be aware at the end of every Task Force meeting DSD staff dedicates time for non-task force members to provide feedback. DSD also hosts public meetings to keep the public up to date on the Task Force progress. Again, your feedback is important to us and look forward to seeing you at the next Task Force meetings.

Please visit our website for more detailed information regarding held meetings and see future meeting dates below:
